

CHEMICAL v PHYSICAL CHANGES 2

<i>Chemical</i>	<i>Physical</i>	<i>Change</i>
		1 Melting salt
		2 Burning petrol
		3 Separating the sugar from the water in a solution of sugar in water
		4 Boiling water
		5 Freezing food
		6 Separating sand from a mixture of sand and water by filtration
		7 Puddles evaporating
		8 Heating silver oxide to form silver and oxygen
		9 Lighting a match
		10 Respiration in cells
		11 Nail varnish drying
		12 Leaf rotting
		13 Wax burning
		14 Photosynthesis in leaves
		15 Cooking a chicken
		16 Plant growing
		17 Puddles evaporating
		18 Ink drying
		19 Toast burning
		20 Separating inks by chromatography
		21 Condensing steam
		22 Bunsen burner burning
		23 Mercury rising up a thermometer as the temperature rises
		24 Food going off
		25 Bananas ripening
